

Wireless Smart Scenario Switch⁺

Making your home smarter.

ClickSmart⁺

No Wires Required

The battery-powered Wireless Smart Scenario Switch.

Security Made Simple

Conveniently arm and disarm your smart security automations with a simple click. Create custom security automations with the new Wireless Smart Switch and the ESP Fort Range.

How it works

The Wireless Smart Switch has 3 programmable switch press types for both the top and bottom button.

Choose from a single press, double press or long press (5 seconds).

This gives you a minimum of 6 possible scenarios for controlling your Click Smart+ products.

Master Switch

One switch to control them all. Set up the Wireless Smart Switch to control multiple lights and appliances.

With one click you can create multiple smart solutions for your smart home.

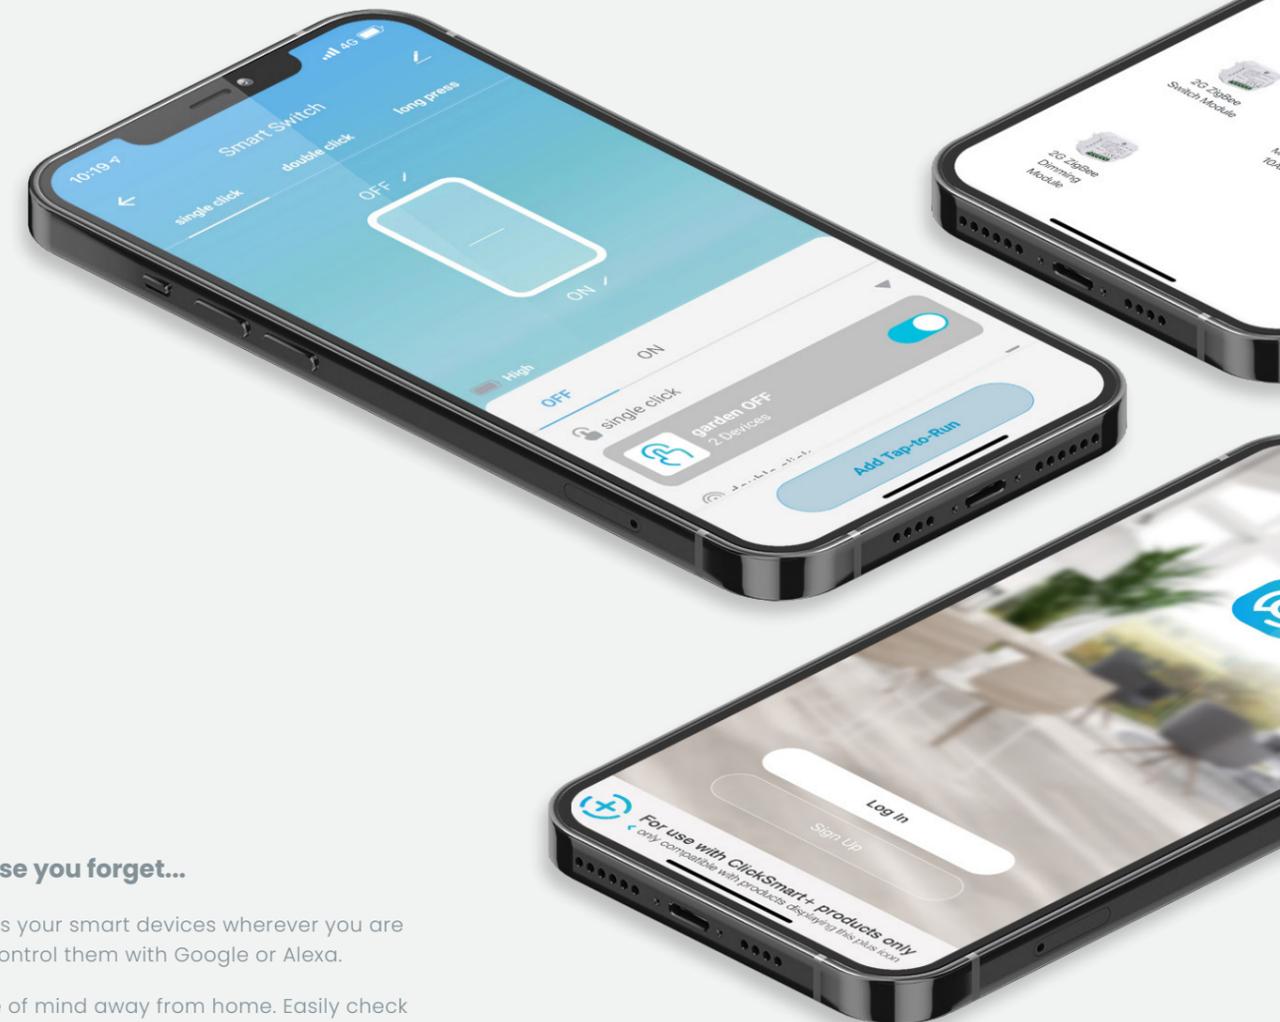

The smart switch is designed with all our GridPro modules benefits in mind. Allowing you to choose any finish plate you desire.

Saving you Energy

Make your home more energy efficient with our new Wireless Smart Switch.

Set routines for your lighting and appliances to turn on only when they're needed. Even turn your lighting and appliances off and on depending on whether you're home or not.

In case you forget...

Access your smart devices wherever you are and control them with Google or Alexa.

Peace of mind away from home. Easily check and change the status of your Click Smart+ devices wherever you are.

A Smarter Switch

Control your lights and appliances from wherever you are.

GRIDPRO

Endless Possibilities

Pair up our products to unlock features and create your perfect smart home.

Comfort

You can easily change the atmosphere of any room. Whether you want to add colour to your interior, set the right light for functional tasks, throw an outdoor party or create a cosy mood for dinner. You can easily personalise your lights with the Wireless Smart Switch.

Security

Protect what matters to you most, the easy way.

Pairing the Wireless Smart Switch to your Click Smart+ or ESP Fort Security devices will allow you to arm or disarm them with a simple click of the switch.

Energy Saving

Trying to remember to turn all your lighting and appliances off at the plug isn't very practical.

With the Wireless Smart Switch you can turn off or on any smart lights or appliances with a simple click.

Complete Control

Imagine being able to control your home with one click. A switch with endless possibilities to help you create a safer, smarter and more comfortable home.

No wires required, just connect the Wireless Switch to the Click Smart+ Hub and app and you're ready to go.
